

ACADEMIC TIMELINE

PhD in Quantitative Biosciences

Start date: Aug 19, 2019

Fall 2019:

- QBioS core course, 1 quantitative course, 1 biology course
- Required seminars – BIOL 8801 A and B
- TA training, international TA training
- Grad groups
- Transfer 3 credits from Master's, which would complete the 'quantitative models in the biosciences' course requirement.

Spring 2020:

- 1 quantitative course, 1 biology course (completes biology elective requirement)
- Complete RCR training
- Complete research rotations with 2 potential advisors.

Summer 2020:

- 1 quantitative course (completes quantitative modeling requirement)
- Required writing course
- Choose advisor and start research

Fall 2020:

- 1 CSE course for interface minor in CSE (completes minor requirement)
- Thesis research

Spring 2021:

- 1 CSE course (completes all requirements for a Master's in CSE)
- Thesis research
- Working towards thesis proposal

Summer 2021:

- Qualifying exam and thesis proposal - Admission to Candidacy
- Thesis research
- Be a graduate instructor for an undergrad math course

Fall 2021:

- Thesis research
- 3MT competition
- Tech to teaching certification

- Start attending conferences/poster presentations
- Apply for fellowships

Spring 2022:

- Thesis research
- Continue attending conferences

Summer 2022:

- Thesis research
- Continue attending conferences
- Be a graduate instructor for an undergrad math course

Fall 2022:

- Thesis research
- Continue attending conferences

Spring 2023:

- Thesis research
- Continue attending conferences
- Start writing papers / publishing articles

Summer 2023:

- Thesis research
- Focus on publications
- Meet with a career advisor to start applying for jobs

Fall 2023:

- Thesis research
- Pre-defense committee meeting with preview of thesis
- Present at conferences
- Start applying for post-doc positions

Spring 2024:

- Thesis research
- Dissertation submitted for review and/or revision.
- Apply for post-doc positions

Summer 2024:

- Thesis defense and public examination

Projected end date: Summer 2024.
